

# BioPotent C™

**Buffered Vitamin C  
Hesperidin  
Niacinamide**

## INNOVATIVE INGREDIENTS. CLINICAL FORMULATIONS.

Vitamin C is a water-soluble nutrient involved in collagen synthesis, neuronal signaling, and gene expression. Due to its role as a potent electron donor, it is one of the most important antioxidants in plasma and tissues. It also helps regenerate other powerful antioxidants like vitamin E.

Vitamin C may support cardiovascular health by supporting blood vessel health and supporting blood pressure already within a normal range. Vitamin C may also support immune function by stimulating leukocyte activity and release of B-cells, T-cells and cytokines. Vitamin C may also help support healthy blood sugar, cognition, vision, and cell turnover.

Vitamin C is an essential nutrient, which means that it must be obtained from the diet or through supplementation. As a water-soluble vitamin, it is best consumed in divided, moderate doses. Unbuffered vitamin C in higher amounts may be irritating to the intestinal mucosa, causing digestive upset and loose stools. Our BioPotent C formula is designed to help lessen acidity and reduce mucosal irritation by using forms of ascorbic acid that have been buffered via chelation with minerals such as magnesium and calcium.

Hesperidin is a citrus flavonoid with antioxidant properties that may help support healthy connective tissue and vascular integrity, platelet function, blood sugar already in a normal range, cognition and healthy immune function. Niacinamide is a precursor to NAD, an important player in redox reactions and DNA repair.

**Product #:** 47087

**Size:** 135ct

**SRP:** \$29.39

## BIOPOTENT C CAN HELP SUPPORT:

- Redox activity and protection against free-radical damage\*
- CV health and maintenance of blood pressure already within normal range\*
- Healthy neutrophil, lymphocyte and phagocyte function\*
- Synthesis of collagen and connective tissue matrix\*

## FEATURES

- Buffered vitamin C blend for better absorption and minimal digestive upset
- Lemon bioflavonoid complex comprised of at least 50% hesperidin
- 25 mg per capsule of NAD precursor niacinamide
- Gluten-free, vegan, non-GMO formula

**Directions:** Use only as directed. Take 1-3 capsules per day or as directed by your healthcare practitioner. Keep tightly capped and store in a cool, dry place.

### 3 capsules contains:

Vitamin C (from ascorbic acid, calcium ascorbate, magnesium ascorbate, ascorbyl palmitate, potassium ascorbate)	1,200 mg
Niacin (from niacinamide)	75 mg
Calcium (from calcium ascorbate)	45 mg
Lemon bioflavonoids complex (50% bioflavonoids)	500 mg

**Other ingredients:** Cellulose, vegetable cellulose capsule, silica.
