

Rejuvenate

Estriol
Evening Primrose Oil
Black Cohosh

INNOVATIVE INGREDIENTS. CLINICAL FORMULATIONS.

Rejuvenate is a rich, luxurious-feeling cosmetic cream featuring USP estriol in a moisturizing base of aloe vera, sunflower oil and MSM that may improve the appearance of fine lines and wrinkles. This potent cream, enhanced with evening primrose oil and black cohosh extract, is designed to provide 3.6 mg estriol per application and may improve the tone of the skin for a more youthful appearance.

Rejuvenate is manufactured within our state-of-the-art, ISO22716-certified facility. Our extensive raw material testing runs the gamut from identity testing to contaminant screening—all driven by the latest technologies. Finished creams are further tested for purity and stability to ensure formulas are of the highest quality available.

FEATURES

- Estriol face cream with EPO and black cohosh extract
- Designed to be non-greasy and non-comedogenic
- Lab verified for quality and stability

REJUVENATE ESTRIOL CREAM:

- Provides approximately 3.6 mg estriol per application
- Formulated to contain 56 mg estriol per ounce
- Features aloe vera and MSM for soothing application and superior absorption

Directions: For best results, apply a dime-sized amount (approximately 1.2 g) to face and neck once daily.

Ingredients: Purified water, Aloe barbadensis (aloe vera) gel, sunflower oil, glycerin, caprylic/capric triglyceride, glyceryl stearate, stearyl alcohol, phenoxyethanol, cetearyl glucoside, stearic acid, methylsulfonylmethane (MSM), estriol USP, potassium sorbate, Cedrus spp. (cedar wood) oil, Lavandula officinalis (lavender) oil, Oenothera biennis (evening primrose) oil, Cimicifuga racemosa (black cohosh) root extract.
