

Vitamin D3/K2 Emulsion

Cholecalciferol
Menatetrenone
MCT Oil

INNOVATIVE INGREDIENTS. CLINICAL FORMULATIONS.

Vitamin D3/K2 Emulsion combines potent, active forms of vitamin D3 and vitamin K2 in an emulsified liquid delivery system for optimal absorption and tissue bioavailability.

As we age, changes occur with calcium and phosphate metabolism that may result in reabsorption of these minerals from our bones into the bloodstream, potentially weakening bones and contributing to atherosclerotic plaque formation. This may be particularly true in women.

Vitamins D and K can support bone strength, healthy cardiovascular function, and healthy connective tissue, cognition, and immune health. Vitamin K2 may help support calcium absorption and distribution into bone rather than into blood vessel walls where it can have deleterious effects. Vitamin D3 can support bone mineralization by supporting healthy calcium and phosphorous homeostasis.

While a healthy diet and exercise are essential to support bone and cardiovascular function as we age, key compounds may provide additional benefit.*

Product #: 42870

Size: 1 oz

SRP: \$20.69

VITAMIN D3/K2 EMULSION CAN HELP SUPPORT:

- Bone strength and cardiovascular health*
- Brain health and cognitive function*
- Immune function and healthy or normal cell differentiation and turnover*

FEATURES

- 125 mcg per serving of cholecalciferol, the biologically active form of vitamin D
- 50 mcg per serving of menatetrenone, a preferred form of vitamin K
- Organic olive oil and MCT oil for better absorption of fat-soluble vitamins
- Delicious, natural orange and lime flavored liquid formula
- Free of artificial sweeteners and colorings

Directions: Use only as directed. Take 5 drops (1/4 mL) once daily or as directed by your healthcare practitioner. Shake before use. Refrigerate after opening and consume promptly.

5 drops contain:

Vitamin D3 (cholecalciferol) 125 mcg
Vitamin K (from vitamin K2 (menatetrenone)) 50 mcg

Other ingredients: Water, organic extra virgin olive oil, MCT oil, citric acid, vitamin E oil, stevia (leaf extract), natural orange and lime flavors, xanthan gum, potassium sorbate
