

COLD & FLU RESCUE WITH ESTER-C®

Relieves cold and flu symptoms

Fast, effective relief; no sedative side effects

The familiar symptoms of head and body aches, sinus and chest congestion, coughing and sneezing are all indications that a cold or flu virus has significantly multiplied and your body is working to expel it and destroy affected cells. Over-the-counter drugs are effective at suppressing only some of the symptoms, and may have negative side effects. A more holistic option is to choose natural health products that stimulate the immune system to eliminate the virus before full-blown symptoms develop.

Sisu Cold & Flu Rescue delivers a unique combination of four ingredients, Ester-C®, andrographis, NAC, and echinacea.

Product Highlights

- Ester-C® is a unique, non-acidic and easier to digest form of vitamin C clinically proven to last up to 24 hours in the white blood cells of the immune system
- NAC (N-acetyl-L-cysteine) protects lungs against respiratory infection and reduces phlegm and symptoms of chronic bronchitis
- The natural sulphur content of NAC is what gives the product its distinctive odour
- Andrographis is an anti-inflammatory herb that stimulates the immune system and helps against cold and flu symptoms including sore throat
- Two echinacea extracts for broad immune support, most effective when taken at the onset of infection
- Does not have any of the sedative or other side effects of over-the-counter drugs

EACH VEGETARIAN CAPSULE CONTAINS:

Medicinal ingredients:

Vitamin C (calcium ascorbate)	300 mg
*from Ester-C® brand calcium ascorbate
