Contains 10% *Symphytum x Uplandicum* Comfrey

Comfrey has been a favourite herb in Europe since ancient times and cultivated by monks as a healing plant since the Middle Ages. The clinically studied comfrey (*Symphytum x Uplandicum* NYMAN) used in Traumaplant is rich in the goodness of the plant's key elements – rosmarinic acid, allantoin, and choline – from the flowers, stems, and leaves.

Did you know?

Terry Naturally[®] CANADA pioneered the introduction of this specific species of comfrey to Canada. Health Canada added *Symphytum x Uplandicum* NYMAN as a new ingredient to their database during registration of the NPN.

*Distributed in Canada by Terry Naturally CANADA, a Canadian company. To be sure this product is right for you, always read and follow the label. *Helps to temporarily relieve aches and pains of muscles and ligaments, caused by strains and sprains (such as acute ankle distortion and back pain). *Helps to temporarily relieve muscle pain such as back pain. *Helps soothe sore muscles. *Helps to speed the healing of fresh abrasions. †Tested pyrrolizidine alkaloids free like all Symphytum x uplandicum products in Canada.

The logo for Terry Naturally CANADA, featuring a red maple leaf to the left of the text 'Terry Naturally' in a large, stylized font, with 'CANADA' in a smaller, bold font below it.

Traumaplant® Medicinal Ingredients[^]:

Symphytum x Uplandicum (Blue Comfrey) 2-3:1 leaf, stem, and flower extract, 20-30 mg dried equivalent 10%

Non-medicinal ingredients: Purified Water, Glyceryl Stearate, PEG-20 Glyceryl Stearate, Isopropyl Myristate, Propylene Glycol, Octyldodecanol, Glycol Salicylate, Dimethicone, Sorbic Acid, *Rosmarinus officinalis* (Rosemary) Leaf Essential Oil, all-rac-alpha Tocopheryl acetate, Citric Acid.

Risk information: Avoid contact with eyes and mucus membranes. If accidental ingestion occurs, call a Poison Control Center immediately. Do not apply with external heat. If you are pregnant or breastfeeding, consult a healthcare practitioner prior to use. Hypersensitivity may occur, in which case, discontinue use. For children (3-12 years) application should be supervised by an adult. Not intended for use on deep or puncture wounds, animal bites or serious burns. If symptoms persist and/or worsen after 7 days or re-occur within a few days, discontinue use and consult a health care practitioner. External use only. Keep out of reach of children.

Suggested Use: For wound healing: 1 application daily, for a period of 7 days. Cover the wound with a sterile dressing. **For muscle pain (Adults & children 3 years & older):** 3 applications daily, for up to 2 weeks. **For muscle pain (Adults only):** 4-5 applications daily, for up to 2 weeks.

NPN: 80056172

[^]Terry Naturally brand products contain naturally sourced[^] and other premium medicinal ingredients, and carefully selected non-medicinal ingredients.

Frequently Asked Questions for Traumaplant Comfrey Cream:

Aren't toxic pyrrolizidine alkaloids (PAs) common in comfrey?

In common comfrey extracts from the plant's roots, PAs can be a concern. With Traumaplant, you don't have to worry – for two reasons. First, the specific comfrey plants used for Traumaplant have been grown to be free of pyrrolizidine alkaloids[†], and secondly, only the flowers, stems and leaves (not a source of PAs) are used to make Traumaplant cream.

Additionally, the growing plants are carefully monitored to ensure they are never contaminated with other comfrey species. Traumaplant retains all the beneficial components of the plant – choline, rosmarinic acid, and allantoin – without the harmful PAs.

Is it ok if my children use Traumaplant?

Yes. Traumaplant is approved in Canada for both adults and children ages 3 and up!

Is Traumaplant gluten free? Vegan?

Yes, Traumaplant is both gluten free and vegan.
